BROWNE ELECTED TO LEAD GOULD '34 BASKETBALL TEAM

Allen and Martinson Other Varsity Men Available Next Season

"Bud" Browne, star forward of Gould's championship basketball quintet has been elected captain of the 1934 team. Browne is a veteran of two seasons and will be one of the mainstays of next year's team.

His many outstanding accomplishments, his high standard of honesty, his sportsmanship, and his spirit of co-operation make this honor bestowed upon him by his team-mates, well deserved. He has been a regular player as well as a mainstay of the varsity team in both his sophomore and junior years where he has proved himself an important passer, as well as a strong cog on the defense. This year he holds the high scoring honors with 188 points for the season; as well as being chosen all tourney forward at the Lewiston Tourney.

Basketball Prospects for 1934 To assist next year's captain, "Bud" Browne, we find two reliable men in Allen and Martinson. Allen has developed into a real power on the defense and is gradually improving his offense work. Throughout the season he has shown a particular knack at covering the right opponent at the proper time. Martinson, before this year, had no basketball experience whatsoever. The improvement in his work during the year has been remarkable, and he is gradually developing into a deceptive passer. His defensive power reached a climax at the Lewiston Tourney when he played the finest game of the year. With these three men as a nucleus for the team of 1934, Gould should be well represented on the basketball court. Without question, Captain Lane's absence next winter will be greatly felt. His selection as All-Tourney guard is ample proof of his worth to the team. Vail and McNally will be graduated this year and their places will be difficult to fill. Some good material, however, is springing up from the Second Team and Squad B. Clayton Glover and Trafton Bartlett, letter men who saw considerable action at the tournament, will also be among the missing when the squad of 1933-34 assembles preliminary to defending the championship which the Anderson coached outfit annexed this winter.

TWO NEW NAMES ADDED AS TRUSTEES OF LIBRARY

At the meeting of the trustees of the Bethel Library Association last week the following officers were elected:

President—F. E. Hanscom.

1st Vice-President—H. H. Hastings.

2d Vice-President—P. C. Thurston.

Recording Secretary—Cleo A. Russell.

Corresponding Secretary—Mrs. A. E. Herrick.

Treasurer—A. Van Den Kerckhoven.

Two new names were added to the trustees, Miss Annie Hamlin and Robert D. Hastings.

SECRETARY OF LABOR DAUGHTER OF FORMER BETHEL WOMAN

It will interest many folk to learn that the first woman member of a President's Cabinet, Miss Frances Perkins, is distantly related to many Bethel families.

Miss Perkins' mother, Susan (Bean) Perkins, was the daughter of Daniel Freeman Bean and a sister of Alpheus S. Bean, who was prominent and influential in West Bethel social and business life before his death. She attended the then private school on the West Bethel Flat road taught by Miss Sarah Bartlett, aunt of State Senator Alton Bartlett, of Hanover, and also attended Gould's Academy. Susan Bean married Fred Perkins of Boston, Mass., and the present Secretary of Labor is their daughter.

Although she uses her maiden name in official life, Miss Perkins is married and has a 16-year-old daughter, Susanna Winslow Perkins Wilson. Her married name is Mrs. Paul C. Wilson.

ENTERTAINMENT GIVEN BY EASTERN STAR GROUP ON WEDNESDAY EVENING

A very enjoyable entertainment was presented by the Ways and Means Club of the Eastern Star at the Masonic Hall Wednesday evening.

Previous to the entertainment a picnic supper was enjoyed by 30 members and guests in the dining room. Invited guests were present at the evening events which began at eight o'clock. The first on the program was a playlet and court scene, written and presented by Mrs. Elaine Davis. This was followed by "Mr. Davis Takes a Hand at Bridge" which was in charge of Mrs. Agnes Twaddle, and the remainder of the evening was spent in games and sociality arranged by Mrs. Alice Brooks. The entertainment was greatly enjoyed by all, who anticipate other presentations under the auspices of this club in the future. The next meeting of the club will be held with Mrs. Perley Flint on the third Wednesday in April.

MASON-TIBBETTS

Alfred C. Mason and Miss Bernice Tibbetts of South Bethel were united in marriage Saturday evening, March 18, at the home of Rev. L. A. Edwards. The double ring service was used.

Mrs. Mason is the daughter of James Tibbetts. She has worked for Mrs. Alice Farrington at Locke Mills for the last few years. Mr. Mason is the youngest son of the late Ernest Mason, coming from Sumner here about eleven years ago.

Their many friends wish them much happiness. They will reside with his sister, Mrs. Agnes Walker.

ST. PATRICK'S DAY PROGRAM GIVEN BY THE REBEKAHS

Following the regular meeting of Sunset Rebekah Lodge Monday evening, the following St. Patrick's program was presented.

Talk on "Life in Washington," Mrs. F. L. Edwards.

Irish Music, piano and violin, Mrs. F. E. Russell, Mrs. Arthur Dudley.

Irish Solo, Mrs. Maude Bean.

Reading, Mrs. Fred Mundy.

Irish Solo, Mrs. Bertha Mundy.

Games were enjoyed by the 25 members present.

ASSESSORS' NOTICE

The Assessors of the Town of Bethel hereby give notice to all persons liable to taxation in said town, that they will be in session at the Selectmen's Office in said town on the first day of April, at 10 o'clock in forenoon for the purpose of receiving lists of polls and estates taxable in said town.

All such persons are hereby notified to make and bring to the Assessors true and perfect lists of their polls and all their estates, real and personal, not by law exempt from taxation, which they were possessed of, or which they held as guardian, executor, administrator, trustee or otherwise on the first day of April, 1933, and be prepared to make oath to the truth of the same.

When estates of persons deceased have been divided during the past year, or have changed hands from any cause, the executor, administrator or other persons interested are warned to give notice of such change, and in default of such notice will be held under the law to pay the tax assessed although such estate has been wholly distributed and paid over.

Any person who neglects to comply with this notice will be liable to a tax according to the laws of the State and be barred of the right to make application to the Assessors or County Commissioners for any abatement of his taxes, unless he offers such list with his application and satisfies them that he was unable to offer it at the time hereby appointed.

ADJOURNED MEETING TO DISCUSS STREET LIGHTS NEXT MONDAY EVENING

In an attempt to effect a 20% reduction in the tax rate of the village corporation the question of reducing the expense of street lights was brought up at the annual meeting on Monday evening, March 13, and it was decided to hold an adjourned meeting on March 27, when the Assessors would be prepared to offer figures and plans to the voters.

We are fortunate in being able to present the three plans herewith as offered by the Assessors. The figures in each case include the cost of the additional lights as authorized at the recent meeting. It will be noted that the first plan includes the use of the present fixtures on Main Street, while the second and third go back to the type of light installed on Main Street 24 years ago and as now in use on the other streets.

The first plan will give the reduction desired. It will keep the ornamental fixtures as now on Main Street and give the remainder of the village illumination equal to that enjoyed by other places larger than Bethel. There is no need of cutting expense further to the detriment of attractive village streets.

At the present time we have 11 large lights on Main Street and 106 60-watt lights in the rest of the village, which cost us \$1,915.50 per year.

Now if we can reduce the cost of lighting so that we can light our streets with a \$1600.00 appropriation we can reduce our tax rate 20% this year.

We are submitting the following plans by which this can be done.

11-400 watt lights on Main Street, \$ 528.00

106-40 watt lights in rest of Village, \$1,069.00

A saving of \$327.50 or a cost of \$1,588.00 for the year.

17-60 watt lights on Main Street, \$ 204.00

5-100 watt lights on Main Street, \$ 90.00

106-60 watt lights in rest of Village, \$1,272.00

A saving of \$349.50 or a cost of \$1,566.00 for the year.

17-60 watt lights on Main Street, \$ 204.00

5-100 watt lights on Main Street, \$ 90.00

106-60 watt lights in rest of Village, \$1,069.00

A saving of \$361.50 or a cost of \$1,254.00 for the year.

The Assessors are bringing these different propositions to the attention of the voters so that they may be informed what can be done, before the meeting.

BIRTHDAY PARTY GIVEN BY MRS. BLANCHE HOWE

Mrs. Lennie Howe and Mrs. Grace Brown entertained several guests at dinner and bridge last Monday evening in honor of the birthday of Mrs. Blanche Howe. At 6:30 the guests were ushered into the dining room to find place cards bearing the names: Mrs. Gertrude Bean, Mrs. Alma Mitchell, Mrs. Alberta Wight, Mrs. Maquette Flint, Mrs. Doris Lord, Mrs. Grace Brown, Mrs. Lennie Howe, and the guest of honor, Mrs. Blanche Howe. After a delicious dinner bridge was enjoyed, with tokens awarded to Mrs. Lord for high score and Mrs. Bean as consolation for receiving low score. The guest of honor received several nice gifts.

Thursday evening March 23, at 6:15 the Methodist Church will serve a parish supper free. The object is to get the entire constituency of the parish together.

TWO-MINUTE SERMON
(By REV. GEORGE HENRY)

IMPERFECTION
It is when our imperfect lives are measured by the life of Christ that we realize how imperfect they are. We often measure ourselves by some other fellow and congratulate ourselves that we are not so bad after all. It is common practice for some no-account outsider to pick a puny, pious, plataneen pigmy who is "in the church" and say, "I am just as good as he is." He never by any chance compares himself with some upstanding, consistent Christian, whose name is Legion. But, in the light of the perfection of Christ, in contrast with the beauty of his holiness, we are all far from perfect. Our instinct is to cry out with Peter, "Depart from me O Lord," or with Isaiah, "Woe is me, I am undone." It is possible, however, to be the kind of a man God would have you be. Christ became a man that man might know that man might become like God.

Middle Intervale, Bethel

The pupils of the Middle Intervale school enjoyed a snowshoe and ski hike to Pickett Hill last Saturday, March 11. The party left about 10:30. After enjoying a dinner which consisted of hot dogs, sandwiches, hot cocoa and apples, a carnival was held. Those taking part in the races and stunts were as follows: Mervin Buck, Helen Stevens, Paul Carter, Raymond Buck and George Brown. The races were snowshoe, ski, snowshoe and ski barrel, potato, and the three-legged race. Skiing and coasting were enjoyed until late in the afternoon.

There was a 100% inoculation for diphtheria in the Middle Intervale school.

The snow plow has been busy in this vicinity the past week.

Joseph Holt was in Portland on Monday.

Paul Carter was absent three days from school last week on account of illness.

Fish Sleep More Shrewdly

Than Most People Suppose

The sleeping habits of fishes have been studied by an Australian fancier, and he concludes that a fish sleeps more shrewdly than we do. "We go to bed," the expert declared, "close our eyes and snore. Once asleep we are beset by dangers—fire, burglars, murderers. A fish sleeps with his eyes open! He is born without eyelids, except in rare instances."

Apparently the eyes of a fish function even when the fish is asleep, for it has been observed that it is practically impossible to "catch a fish napping." If a person tries ever so carefully to poke one with a stick, he says, the fish is immediately galvanized into action, the eyes having sent the alarm to the sleeping body.

Unless rudely interrupted in his slumbers, however, the fish appears dead to the world, so still is its body when it is resting. The breathing decreases until the body shows practically no motion and this leads persons observing sleeping fishes in aquariums to believe that they are dead.

Fishes sleep much more in the winter time than in the summer, often "hibernating" without food for days at a time. During these periods they draw on their body fats for sustenance.

Arizona Meteor Theories

Fail to Solve Mystery

Scientists have advanced two additional theories regarding the meteor which is believed to have struck the earth causing the great meteor crater in Arizona. One of the theories advanced is that the so-called Arizona meteor was actually a real comet which collided with the earth.

The other is that this comet struck the earth at an estimated speed of 40 miles a second during the Thirteenth century and annihilated all the aboriginal cliff dwellers when it hit.

Science generally recognizes Meteor crater as one of the three known places in the world where a great meteor struck the ground. But so far no scientist or scientific group has been able to locate the meteor in the ground. Of the other two known meteors, one is in Siberia and the other in the Sahara in North Africa. The one that fell in Siberia is known to have knocked down by the force of its wind, all the trees in forests for many miles around.

Scientists believe meteors to be fragments of suns or other worlds.—Pathfinder.

Scrambled Aphorisms

At a lecture before the Rotary club of Colombo, Rotarian Curry, of the Dorking club, mentioned that most of the native servants have a fairly sound working knowledge of English, but they are unable to comprehend the finer points of English idiom. A native, excusing himself for not attending to his work because his mother had died, wrote: "The hand that rocked the cradle has kicked the bucket." Another, in the course of an argument, said: "You have buttered your bread on both sides, and you must lie on it." Another pleaded that he was "so poor that he could not keep the cat out of the bag."—Ceylon Daily News.

Yucca Wood

In the Southwest, especially in southern California, the yucca attains great dimensions, although the various species of yucca are not considered as trees. According to "Lumber and Its Uses," nearly 200,000 feet of lumber is annually manufactured from yucca. The wood is very light in weight, fibrous, tough, and when wet, pliable and easily molded into desired forms. It is used largely for woodenware and novelties, but a considerable quantity is used in millwork in California, and in that state it is used more than any other material in making artificial limbs, jackets, surgeons' splints and corsets.

SOUTH WOODSTOCK

Sunday, March 19—The last Sunday for the winter. And such a warm pleasant winter as we have had. Climatic conditions unsurpassed.

Mr. and Mrs. Corrie Bonney of West Sumner were week end guests at A. M. Andrews.

Sliding by the light of the moon has been one of the pastimes of the giddy maids and youths of South Woodstock for some time. One of the largest get-togethers numbering about forty.

Frank Andrews has been confined to his room several days during the past week, suffering from a severe cold and complications.

Orman Safford of Monmouth was the guest of Mr. and Mrs. Stanley Andrews.

Mrs. Elizabeth Russ spent the past week as guest of her husband Albert Russ, our Representative to the State Legislature at Augusta.

G. W. Q. Perham and son Edwin Perham, Ellis Davis and Lester Felt attended the hearing on tax bills at Augusta held recently.

Mrs. Rose Cole, who has been quite ill, is much better at this writing.

Mrs. Harry Sliver recently entertained her sister and husband, Mr. and Mrs. P. F. Beely and their three children from Turner. Mrs. Beely, formerly Miss Hortense Harlow, was a former student here at Union School.

Mrs. Florence Perham, R. N., since returning from Locke Mills at Mr. Guy Emery's, has been on nurse duty at West Paris.

Mr. and Mrs. Quimby Perham and Mr. and Mrs. Edwin Perham attended the Harrison conference meeting of masters, secretaries, and lecturers of Oxford County subordinate Granges, held at Harrison, March 17.

Stanley Andrews, Orman Safford, and Linwood Curtis spent Sunday at Camp Curtis, Pleasant Pond, in Sumner where fishing for pickerel was enjoyed backed up by an OK campfire dinner.

Frederick Briggs of West Paris was the guest of the Andrews boys the past week.

Benson Brothers are filling the wood contract for Union School for the coming year. Beech, Birch and Maple. All begins with "A." Figure this out, school children, and his own home town of South Woodstock report your answer in next week's stock, Maine.

UPTON

The Farm Bureau held a meeting Tuesday, Mar. 14, at Mrs. Isabelle Fuller's. The subject was Square Meals for Health. Mrs. Isabelle Fuller and Mrs. Rena Lane, who went to the training class at Bryant Pond a while ago, were in charge of this meeting and demonstrated the dishes which they learned to prepare at that meeting.

All members were present except Mrs. Eva Bodge and Mrs. Eva West. During the business meeting it was voted to send the Chairwoman, Mrs. C. A. Judkins, as delegate to Farm and Home Week at Orono, March 27th to 30th.

The Farm Bureau members with the help of a few others are preparing an entertainment to be given at the Grange Hall, Friday, March 24. It is hoped that the public will largely attend.

The Grange whist party was held at the hall Friday last week, instead of Saturday as is usual.

Mrs. Lee Abbott had two tables of bridge at her home Saturday

Oxford County Citizen.

Mr. and Mrs. Gerald Davis entertained a small card party at the Davis homestead on Saturday evening, March 18. Those present were Mr. and Mrs. Harland Andrews, Mrs. Stanley Andrews, Miss Minnie Beely, formerly Miss Hortense Harlow, George Davis and Francis Johnson. The games proved most interesting and at a late hour refreshments were served by the hostess who extended the invitation to come again when it is hoped, others who were invited but who were ill at the time, may then be present.

A broadcast over WCTH, Portland, gave us a most delightful program by the Glee Club of West Paris High School at 3:30 P. M. March 18. This club is composed of more than ordinary talent, and under the management of their business director, Miss Dorice Bennett, was at its best, all blending in perfect harmony, clearly and distinctly heard. Again we heard Andrews.

Bane and Curtis of former radio fame, the future operatic star, Miss Scribner, and other future celebrities, but when "Pete," lone cowboy of the west, sang "Bury Me Not on the Prairie" we were lost in admiration of one dear to our hearts in figure this out, school children, and his own home town of South Woodstock report your answer in next week's stock, Maine.

evening. The guests were Mr. and Mrs. E. O. Judkins, Mr. and Mrs. J. O. Douglass, Paul Fuller and Miss Lynda Barnett, with R. S. Irons and Mrs. Abbott making up the second table. Delicious refreshments were served after the playing.

Schools closed last week. Master Stanley Judkins, who has had a long siege of scarlet fever in Andover, has returned home.

The Brown Company has finished its logging business in this town and moved out.

E. O. and P. W. Judkins are away a few days this week on business.

C. A. Judkins went to Portland Monday of this week on business for the town.

Lee Abbott has returned home from his trip to Middle Dam.

Miss Myrtle Pratt was home from Gorham Normal School over the week end.

Albert Judkins was home from Gould Academy over the week end.

GOINGS ON IN MAINE

By Leon G. Cates

President Murchie of the Senate
has talked early adjournment from
the beginning, and he is now doing
everything in his power to get the
business of this Legislature done so
adjournment can be had by March
25th. Late years sessions of the
legislature have run along from
the 5th to the 10th of April. So, if
this session adjourns before April
1st, it will have established a re-
cord for speed. Of course, this is
a minor record as compared with
some of the other records this
legislature has set up. This session
is not all over yet; but so far this
legislature has cut expenses of cost
for running the State of Maine;
and this is the first time for many
years that the State expenses
have been lowered. That is a fair-
ly good record to be proud of—and
there are other things as you will
see before the closing days. How-
ever, it isn't going to be the easiest
thing to adjourn before the 25th.
Here are some very important mat-
ters that must be taken care of
before adjournment—a bill propos-
ing a general sales tax; and other
important taxation matters includ-
ing a tax on chain stores, and a
tax on intangibles, and on power
companies—the salary bill, cutting
off something over \$400,000.00 from
the State and County officers and
employees pay—regulations for
motor trucks—repeal of the direct
primary law—plans for a constitu-
tional convention on the 18th
Amendment—and there are six or
eight other less important bills
which may provide more fireworks
in the closing days than those men-
tioned.

Probably the most important
piece of legislation passed last
week was the emergency bank leg-
islation which was signed by the
Governor Friday night. This mea-
sure was similar to the legislation
enacted by Congress and signed by
President Roosevelt. As a result of
this State and Federal bank legis-
lation, over 60% of the banks of
Maine have been opened since the
Bank Holiday was declared, and
more are to open shortly.

The committee on Federal Rela-
tions has come to the front this
session, like it seldom has done be-
fore. All the bills to provide for a
constitutional convention for the
Repeal of the Federal Prohibition
Amendment come before the Fed-
eral Relations Committee and there
have been four such bills presented
so far. It is safe to say that the
measure adopted by the legislature
will provide for a small number of
delegates who will be pledged
"for" and "against" the repeal of

the 18th Amendment; so that when
the matter comes to a vote, prob-
ably next summer, the matter will
be clean-cut out as to how the ma-
jority of the people of Maine feel
about the national Prohibition law.

The bill which would permit the
awarding of contract by the State
to any citizen of Maine, or incor-
poration, even though the Maine bid-
der was two per cent higher than
some out-of-State bidder, has had
an up-set. The Judiciary committee
reported it "ought to pass," because
there was no opposition to it at
the hearings; and it sailed merrily
along through the House; but in
the Senate it was tabled by Senator
Roble, and referred back to the
committee. Roble says such a mea-
sure would "build a fence around
the State of Maine" that it was a
"dangerous proposition" and "un-
American"—he further said that
"such a measure could be turned
into a racket."

Three bills providing for an open
season on moose, in certain coun-
ties, was reported "ought not to
pass." The Grange sponsored two
bills which had their hearings be-
fore the taxation committee last
week. One bill provided for the levy
of an excise tax on electric power
companies; and the other would
provide for a tax of 2½ mills on
intangible personal property. Har-
ry B. Crawford, of Houlton, mar-
shaled the forces favoring the
bills; he said, "there is 750,000-
000.00 of intangible property in
Maine paying little or no tax at
present, and it should come in for
its share of the cost of Govern-
ment." The bill had plenty of oppo-
sition. Leo P. Hinds, Portland tax
assessor said it would cost \$50,000
per year to administer the bill, and
"in order to afford a relief of five
per cent to real estate, an amount
of intangible property 66 times as
great as was found in 1932 will
need to be discovered."

The bill to legalize amateur
sports on Sundays was reported
"ought not to pass." A bill pro-
viding that the election of a super-
intendent of schools shall not be
effective unless approved by the
school committee of the town in a
union having a majority of the
teachers, was reported "ought to
pass." The bill which would have
provided an increased fee for the
registration of motor trucks was
reported "ought not to pass."

THE PAPER YOU LIKE TO READ

The result of a recent campaign to determine the more popular features of the Citizen has led us to adopt the present form of the paper and to present, in addition to the usual amount of local news, these popular features:

State News:

Here and There in Maine

Doings of Legislature:

Goings On in Maine

Questions:

How Much Do You Know?

Poems—Old and New:

With the Poets

Fiction:

The May Day Mystery

Short Stories

Two-Minute Sermon

These features are instructive, entertaining, and reliable, and are not to be found in any other Oxford County paper. The County news is sent direct to the Citizen each week by our own staff of correspondents, and many of our readers regard the paper as a history of this section, up to the minute each week.

The popular serial, "The May Day Mystery," by Octavus Roy Cohen, started last week. It will continue for three months. Send us fifty cents and we will send the Citizen to your address until the story is completed—or buy it from one of the Citizen newsboys. Their names are on page four.

American Trade Dollars

Were Meant for the Orient

The trade dollar is a silver coin that was brought into existence in 1873 for export to China and other oriental countries to compete with the Spanish or Mexican dollars in circulation there. It was really a device for promoting the exportation of American silver. Silver in this form was readily accepted because of the government guarantee of its weight and fineness. These coins were issued from 1873 to 1895, inclusive.

Trade dollars also entered very largely into the trade of the Pacific coast states and territories, and later circulated extensively in every other state and territory. They were not intended by congress to be legal tender, but through an error, the authorization act made them legal tender for sums up to \$5. The legal tender quality, however, was withdrawn by a joint resolution of congress approved July 22, 1876, and the coinage of trade dollars was limited to such numbers as the Treasury department deemed sufficient for the export demand. They were finally retired under an act approved February 10, 1887.

Trade dollars of 1883, 1884 and 1885 are more rare than those coined during the other years, and in good condition command a premium.

Pluto, Ninth Major Planet, Billions of Miles Away

Pluto is the ninth major planet of the solar system, of the fourteenth and fifteenth magnitude. The existence of this body had been predicted in 1915 by the late Prof. Percival Lowell. Lowell's calculations were based on the erratic behavior of Neptune, which was then the farthest known planet; the discovery was made in March, 1930, by Clyde W. Tombaugh, assistant at the Lowell observatory at Flagstaff, Ariz. The event created a sensation, and it was reported that years of study would be needed to determine the facts. Skeptics in scientific circles suggested that the body was a comet, or that its discovery near the predicted position should be regarded as accidental. It is stated that the orbit of Pluto is from 2,800,000,000 to 4,000,000,000 miles from the earth, from the orbit of which it is inclined 17 degrees. Calculated to be smaller than the earth, Pluto is invisible to most telescopes because it is not self-luminous and, being perhaps the most distant object in the solar system, receives very little light from the sun.

Arsenic Eaters

In the iron mountain regions of the Austrian province of Styria, where arsenic is a by-product of iron smelting, some peasants eat this virulent poison, according to the National Geographic Magazine. It is taken in small doses, which are gradually increased as the system becomes used to it, until it may be taken daily, without visible ill effect, in quantity sufficient to kill an average person. The arsenic is supposed to clear the complexion, increase the appetite, and improve breathing, especially for mountain climbers.

Green and Black Tea

The most common tea in use is China tea, which is made from the leaves of *Thea sinensis*. This plant is closely related to the camellia. Both green and black tea may be manufactured from the same plant since the difference is due to the process of preparing the leaves. Green tea is the result of drying the leaves immediately upon their removal from the plant, while the leaves of black tea are fermented for a short time before they are dried.

Curvature of the Earth

The curvature of the earth is about eight inches to the mile and varies as the square of the distance. For two miles the curvature is four times eight inches; for half a mile it is one-fourth of eight inches, and so on. The curvature of the earth, making allowances for refraction, is about 2.5 feet for 20 miles. A ship 200 feet high is completely out of sight at a distance of 20 miles assuming the eye to be near the level of the sea.

They'll Take Care of the White House

Mr. and Mrs. Henry Nesbitt, neighbors of the Roosevelts in Hyde Park, N. Y., who accepted Mrs. Franklin D. Roosevelt's offer to be custodian of the White House. Mrs. Nesbitt was once the manager of a co-operative market in Springfield, Mass. Mr. Nesbitt was formerly chief clerk for the Northern Pacific railroad in Minnesota.

GOULD ACADEMY NOTES

Rebecca Carter, Gould '29, now a member of the senior class at Bates College has recently been elected to Delta Sigma Rho national honorary forensic society. Miss Carter will be remembered as one of the best debaters ever to represent Gould on the forensic platform. She has been a member of the Bates varsity debating team during her four years of college work, having made the squad in her freshman year. Delta Sigma Rho national honorary society has but one chapter in Maine and that is at Bates College.

School on Friday will consist of one session beginning at 8:00 a. m. and ending at 12:10, thus affording the convenience of the afternoon for those going home for the vacation.

Declamations were given last week by Helena Vetquosky, Rosaline Rowe, Charles Dwyer, Phyllis Davis, Marjorie Berry, Mildred Farrar, Stewart Lane, Stanley Brown, Jeanette Sanborn, Kathryn Goldthwait, Marguerite Hall, and Ruby Jodrey.

The basketball squad journeyed to Rumford Saturday where they had team and individual pictures taken. They were accompanied on the trip by Coach Anderson and Mr. Crane.

Dr. Hanson devoted part of the chapel period Monday morning to a discussion of questions pertaining to parliamentary law.

The five leading scorers on the Gould championship basketball team are: Paul Browne with 183 points, Morris Vail with 133, Stuart Lane with 98, Stanley Allen with 93, and Cyril McNally with 84. Practice in baseball, under the direction of Coach Anderson, and in track, under the direction of Coach Fossett, will start directly after the Easter vacation.

TWO METHODS OF CANNING YOUR SURPLUS MEAT

The present prices paid farmers for beef and pork make the home canning of meat a decidedly profitable enterprise, as meat canned now will save a cash outlay next summer and fall.

Meat and fish for canning should be in perfect condition. Bone if desired, wipe clean with a damp cloth and cut in pieces suitable for packing into jars.

METHOD I

Cook the meat as for table use by roasting, boiling, frying or stewing. Remove bone and gristle and cut into convenient pieces for packing. Fill clean, hot jars with meat. Add salt (one teaspoonful to a quart). Fill jar to within one-half inch of top with hot pot liquid (hotted down), gravy or hot water. Partially seal and process in hot water bath for three hours. Completely seal and cool at once.

METHOD II

Cut meat into convenient sizes and pack the raw meat solidly into the jar, filling them to within one inch of the top. Add 1 teaspoon salt for each quart. Adjust rubber and cover and partially seal. Use no water as the meat will make its own liquor. Process for 3 to 4 hours in the hot water bath. Completely seal and cool at once.

CHURCH ACTIVITIES

FIRST CONGREGATIONAL CHURCH

L. A. Edwards, Pastor
9:30 Church School. Miss Ida Packard, Superintendent.

11:00 Morning Worship. The Pastor will present the third sermon in the series "What Is It to be a Christian?" the topic for this Sunday being "Followers."

If a person passes satisfactorily the doctrinal tests of the church is he a Christian?

What test did Jesus give men before he enrolled them as his disciples? Was it not simply this "Follow Me"? But Jesus knew, and every follower today knows full well what is implied in that simple command.

6:30 Meeting of the Comrades of the Way. The topic for discussion will be "Playing Square with Tomorrow." Leader, Clayton Glover.

METHODIST CHURCH

R. G. Dalzell, Pastor
9:45 Sunday School. Superintendent, Evans Wilson.

11:00 Morning Worship. The pastor is preaching a series of sermons on the general topic of "Characters and Personalities of the Early Church."

The mystic misses God much more than we do because he wants him so much more. It is in the depths of our own nature that we find God. Only Spirit can communicate with Spirit. Whatever a man most cares for guides, controls, and molds him.

6:30 Epworth League. Devotional leader, Eugenia Haselton. A chapter from the study book will be discussed by Mrs. Esther Brown.

7:30 Evening Service. "The Old Rugged Cross" and other favorite hymns will be sung. Service will be held in the auditorium.

7:30 Monday evening. Prayer Service.

Tuesday evening at 6:15 the church will serve a parish supper. This supper is free. Its object is to get the entire constituency of the parish together.

The Sunday School Board will meet Thursday March 30 at 7:30 at the church.

CHRISTIAN SCIENCE CHURCH

Carried Too Far

The foreman was called away for a few days, and during his absence he left two of his most trusted workmen in charge.

"Pat," he had said before he went, "you can be foreman on Monday, and you, Mike, can be foreman on Tuesday."

On Monday morning Foreman Pat made Mike's life unbearable. He gave him all sorts of difficult jobs, and complained because they were not done properly.

Mike stuck it out for as long as he could without saying a word. At last he pulled Pat aside.

"You're having it all your own way today," he said grimly, "but you wait until tomorrow, you'll wish you'd never been born."

"You'll be doing nothing to me, Mike, my lad," he said. "I'm foreman of this job today, and I'm giving you the sack tonight."—Answers.

The May Day Mystery

By Octavus Roy Cohen

One of the best of the stories by this famous author

Murder is done on the quiet campus of a large Southern University. Around three persons—two students, one the most popular girl in the college, and a professor—is woven a web of circumstantial evidence and incriminating motives.

A second crime—apparently unconnected with the murder—is committed and to solve this is called Detective Jim Hanvey, a figure well known to Mr. Cohen's readers and who here makes his first appearance in a story of serial length. As the clues become more numerous and the trail more involved, the sleuthing methods of Detective Hanvey are followed with increasing zest until the reader fairly races ahead in an effort to check up on his deductions.

It's the mark of a winner when a detective story moves along with the growing tensions and excitement of *The May Day Mystery*. Ingenious, swift and unusual, it is a yarn to thrill the most jaded mystery fan.

It will run serially in these columns, and no reader should miss the opening chapters. If you don't know you'll want to know each new installment.

HERE AND THERE IN MAINE

The appointment of Robert Braun of Portland as conservator of the Fidelity Trust Company and Harry M. Verrill conservator of the Casco Mercantile Trust Company was announced Sunday. The appointments were made by Chief Justice William R. Pattangall, under authority of the emergency banking law passed by the legislature on Friday.

Henry Cyr, the five year old son of Mr. and Mrs. Henry W. Cyr of Fairfield, was drowned Monday afternoon when he broke through the ice near the shore of the Kennebec river where he was playing. His sister was with him at the time and she called her mother, but when other help arrived the body had been taken in the swift current.

According to figures gathered by Representative Utterback of Bangor, 73% of the cultivated land in Maine is used for potatoes. This is the highest percentage of any State. The average production in Maine is 293 bushels per acre, while the national average is 109 bushels. Minnesota, which ranks next to Maine, raised 25,500,000 bushels on 329,000 acres, and Maine produced 47,500,000 bushels from 63,000 acres.

Waterville schools were closed Tuesday after two children and 20 dogs had been bitten by a dog running wildly about the city. The animal was shot Wednesday but schools will remain closed until measures have been taken to prevent the spread of rabies.

Parker B. Smith, president of the National Shoe and Leather Bank of Auburn, was appointed conservator of that bank Wednesday. The bank will be open at once for restricted business and is expected to be on a normal basis in a few days.

The Public Utilities Commission dismissed the petition of the State Highway Commission to abolish the underpass at North Kennebecport, and substitute an overpass. The estimated cost of the work is \$131,267, and it was said that the Boston and Maine railroad was not in condition to pay its share of that amount at present.

Maine gasoline tax receipts for January and February reached a total of \$413,819.99, an increase of \$6,015.61 over that period in 1932.
